# Xpert RTD+

FDA 21 CFR Part 11

Reference Probe with Digital Display Unit

+ XpertRTD® PLUS is a stand alone display and interface between smart probes and Lives International Systems
+ User selectable: engineering units display in °C, °F, °K and Ohm
+ Automatic address detection of the smart probes
+ RJ connector to Smart Probe / connectable to Validator
+ USB / radio frequency signal transmission to XpertLog® systems

Stand alone display and interface between smart probes and Lives International Systems:

- calculates and displays the minimum and maximum temperature values

- USB connection to XpertLog® systems

- radio frequency signal transmission to XpertLog® systems

- radio frequency transmission: 2.4 GHz

- wireless range: 121m (400 feet) line of sight

- compatible with Lives International Access Point

- automatic address detection of the smart probes

- weight 425 g (15 oz)

Order Reference

XpertRTD+

Operating range:	- 196°C to 420°C
Accuracy:	± 0.025 °C
Resolution:	0.001
Connections:	

- 1 x USB B Port

- 1 x 12 V DC Power Supply

- 1 x RJ12 port

- 1 x DIN 6 pin port
